

Non-Degree Course Syllabus

Lifelong Learning

a division of Western Technical College

608 789-6100

Course Title/Hours: Dreamweaver I (Mondays 6 - 9 pm, 9/14 – 10/12/2009)

Course Number: 34343

Course Description: Enter gracefully into the world of Web development. Discover how Dreamweaver helps make it easy to create rich Web sites. This course covers creating a site, working with code, implementing graphic and Web design elements, CSS integration, tables, forms, site mapping, and beginning Web project management. This course, using Mac OS X, gives you everything you need to begin building Web sites in Dreamweaver, and gives you the necessary background to use other Web development programs.

Prerequisites: Some HTML knowledge is helpful.

Class Information	Instructor Information
Room Number: C109A	Name: John Montét
Start Date: September 14, 2009	Phone: 608.397.3801
