JavaScript

○

THE FOURTH WEB PAGE COMPONENT

JavaScript

- **Downloaded**
 - Just like XHTML, Pictures, and CSS
- **Runs in the browser**
 - All do a good job of running JavaScript
 - No worries!

JavaScript

- **Exists between <script></script> tags**
- **Usually in header**
- **Called from XHTML**
- **Runs on *events***
 - OnClick
 - MouseOver
 - OnLoad
 - Etc.

JavaScript

- **Can live in the page**
 - Usually in the header
- **...or in an external file**
 - Included with <script></script> tag
 - Adds href="" attribute
 - File has .js extension
